

Molten Salt Reactor Workshop at PSI

Safety,
Designs,
Diversity,
Sustainability

PSI Auditorium | 10. December 2025 | morning

Generation IV International Forum (GIF) signed in January 2025 the new Framework Agreement to continue the collaboration on fourth generation nuclear systems development. Switzerland is involved in GIF HTR and MSR activities. The upcoming 39th GIF MSR meeting will be hosted by PSI. At this occasion an MSR workshop dedicated to the national projects of the GIF MSR members will be held. It will include the country programs of EU, France, Korea, Switzerland, and USA, and present also the collaboration project between PSI and Copenhagen Atomics.

Agenda:

08:30-09:00 Registration & Coffee
